The IRWA, with funding from the United States Environmental Protection Agency (U.S. EPA) through the National Rural Water Association, is able to offer this training to you at no charge. Participating in this session can give you 4 hours of water operator certificate renewal credit.

To be assured a spot at this session, please send the attached registration form back to the IRWA office by April 28, 2020 or go online to www.irwa.org to register.

Confirmation should be mailed out for this training session one week prior to the class.

New Requirements for Control of Corrosion on Infrastructure

Technology for Corrosion Protection in the Water Industry

Coatings Inspection and Project Development

Corrosion Control and the Lead and Copper Rule

DATE: May 12, 2020

Freeport Public Library Meeting Room B
100 E Douglas Street
Freeport, IL 61032
TRAINING OBJECTIVE:

The Illinois Rural Water Association (IRWA), with funding from the U.S. EPA (through the National RWA), is conducting this no cost session on the statutory/regulatory requirements for corrosion control of water supply infrastructure with a focus on protective coatings by industry experts.

The intended audience of this session is the operational staff and decision-makers of public water supplies in Illinois. All necessary materials for the session will be furnished.

Again, this is a “no-charge” training session with 4 hours of operator certification renewal training hours pre-approved by the Illinois EPA.

IRWA has not applied for waste water operator renewal credits for any portion of this session. However, the possibility exists that some or all of this program may qualify.

AGENDA

8:00-8:30  Registration & Welcome
8:30-9:30  New Requirements for Control of Corrosion on Infrastructure, Dave McMillan, IRWA
11:30-12:30 Introduction to Corrosion Control and Complying with the Lead and Copper Regulations, Dave McMillan, IRWA
