The IRWA, with funding from the United States Environmental Protection Agency (U.S. EPA) through the National Rural Water Association, is able to offer this training to you at no charge. Participating in this program can give you 4 hours of water operator certificate renewal credit.

To be assured a spot at this session, please send the attached registration form back to the IRWA office by April 21, 2020 or go online at www.irwa.org to register.

Confirmation should be mailed out for this training program one week prior to the class.

New Requirements for Control of Corrosion on Infrastructure

Technology for Corrosion Protection in the Water Industry

Coatings Inspection and Project Development

Corrosion Control and the Lead and Copper Rule

DATE: May 5, 2020

Grand Tower Community Building
602 Front Street
Grand Tower, Illinois
TRAINING OBJECTIVE:

The Illinois Rural Water Association (IRWA), with funding from the U.S. EPA (through the National RWA), is conducting this no cost program on the statutory/regulatory requirements for corrosion control of water supply infrastructure with a focus on protective coatings by industry experts.

The intended audience of this program is the operational staff and decision-makers of public water supplies in Illinois. All necessary materials for the sessions will be furnished at the time of the program.

Again, this is a “no-charge” training program with 4 hours of operator certification renewal training hours pre-approved by the Illinois EPA.

IRWA has not applied for waste water operator renewal credits for any portion of this program. However, the possibility exists that some or all of this program may qualify.

AGENDA

8:00-8:30  Registration & Welcome
8:30-9:30  New Requirements for Control of Corrosion on Infrastructure, Dave McMillan, IRWA
10:30-11:30 Coatings Inspection and Project Development, Steven Roetter, Sherwin-Williams.
11:30-12:30 Introduction to Corrosion Control and Complying with the Lead and Copper Regulations, Dave McMillan, IRWA
