

TRAINING OBJECTIVE:

The IRWA, with funding from the United States Environmental Protection Agency and the National Rural Water Association, is conducting this at-no-charge training session on the proper procedures and application of sludges generated by treatment plants.

This session is for all operators and decision-makers that are responsible for the operation of a public water supply.

All materials will be furnished for this session.

4.00 actual hours of training will be awarded for this session.

You **MUST** attend the entire session to receive credit hours and certificates.
