

Job description

WATER DISTRIBUTION OPERATOR I

SUMMARY DESCRIPTION

Under supervision (Water Distribution Operator I) or general supervision (Water Distribution Operator II) performs a variety of skilled and semi-skilled duties associated with the installation, maintenance, and repair of the water distribution system; ensures an uninterrupted supply of quality potable water to the customers of the District; and operates and maintains a variety of heavy equipment and hand and power tools and equipment.

DISTINGUISHING CHARACTERISTICS

Water Distribution Operator I – This is the entry level class into the Water Distribution field. Operators in this series will be expected to enroll into the Illinois Rural Water Associations Two-year Apprenticeship program. And upon program completion obtain an IEPA class C water operator certification license issued by the Illinois Environmental Protection Agency. Employees will be performing routine and less complex water distribution maintenance duties while learning District policies and procedures. Positions at this level are not expected to function with the same amount of program knowledge or skill level as positions allocated to the Water.

Distribution Operator II level and exercise less independent discretion and judgment in matters related to work procedures and methods. Work is usually supervised while in progress and fits an established structure or pattern. Exceptions or changes in procedures are explained in detail as they arise. As experience is acquired, the employee performs with increasing independence and responsibility. Advancement to the "II" level is based on demonstrated proficiency in performing the full range of assigned duties, possession of required certifications, and is at the discretion of higher level supervisory or management staff.
